

Highland Council submission of 22 December  
2022

## PE1941/T: Stop the destruction of headstones within community cemeteries

Thank you for contacting us regarding petition PE1941. The Council are aware of the obligations towards burial ground memorial safety and inspections have been undertaken of burial grounds. We do not routinely contact lair holders ahead of inspections. The Council are currently reviewing procedures on contacting lair holders where issues are identified as a result of an inspection.
