

Scottish Government submission of 17 August 2023

PE1962/E: Stop motorhomes parking overnight out with formal campsites, caravan parks and Aires

Request from Committee: The Committee is keen to know whether the campervan and motorhome working group has reported to the Visitor Management Steering Group and when the Steering Group is expected to respond to that report.

Response: As work is still underway, no formal report has been submitted to the steering group, although informal updates have been provided.

Reporting was discussed at the Visitor Management Steering Group and it was agreed a formal report will be provided at the end of 2023.
