

## **Equalities, Human Rights & Civil Justice Committee**

6 October 2023

We asked our Members for their views and have had one response (out of 7 Members).

Member was in support of a change. Preference is Option C but would like to add that they think some flexibility might be needed at times. The second preferred option would be B.

Member supports a change to standing orders to provide that a motion refusing legislative consent can only be lodged if a corresponding legislative consent memorandum (LCM) has been lodged and that this memorandum must include a draft motion.
