England and Wales have set drug driving limits that allow the police to target drug drivers more efficiently and effectively and that, as a result, the detection of drug driving offences has increased from 52% in 2012 to 95%; believes that Police Scotland has to use the five-point practical field impairment test when officers suspect that someone is driving under the influence of drugs; notes that a consultation in Scotland on this issue was completed in July 2015, and recommends that, to make the country's roads safer, the Scottish Government should introduce drug driving limits.

***S5M-00672 Richard Leonard: Stop the Europark Development Campaign**—That the Parliament is deeply concerned about a Proposal of Application Notice from the developer, Orchard Brae Ltd, to build 3,000 houses and other retail and commercial uses on greenbelt between Calderbank and Carnbroe in North Lanarkshire; believes that such a development would be a clear breach of the Scottish Government's policy on greenbelt as set out in the Scottish Planning Policy, paragraphs 49 to 52, and welcomes the formation of the Stop the Europark development campaign.

***S5M-00670 James Dornan: Impact of EU Referendum Result on Higher Education**—That the Parliament recognises the significant and direct effects that the result of the EU referendum will have on Scotland's 19 higher education institutions, their staff and students; welcomes the reassurances given by the First Minister to European citizens living here that Scotland is their home and that their contribution to Scottish society is valued; stresses the value that Scotland continues to place on the contribution made by over 4,500 staff and 24,000 students from the EU who work and study in the higher education sector; is very concerned at the implications that Brexit now poses for continued opportunities for student mobility, attracting talent that furthers teaching and research excellence, the quality of research, which is known to have a greater impact when internationally co-authored, and access to important research funds, such as over £636 million to Scotland in the period 2007-13, that focus on shared societal challenges including dementia, other major health conditions, climate change and productive seas, and calls for cross-party support to secure the best possible outcome for Scotland's higher education institutions from the negotiations resulting from the referendum result, including prioritising the right for staff and students from EU countries to continue working and studying in Scotland and negotiating access to European programmes for students, staff and research.

***S5M-00669 Ross Greer: Third Sector European Funding**—That the Parliament expresses concern about the significant levels of uncertainty for the many third sector organisations in Scotland that receive funding from the EU to deliver services to vulnerable families and individuals in Scotland; understands that this would include planned services to be provided by charities such as Action for Children and Barnardo's Scotland as a result of £15 million of European Social Fund money committed to the organisations through the 2014-2020 programme; notes that these are services delivered to vulnerable young people to support them into employment and training in and across Scotland, and urges the Scottish Government to guarantee that those most in need of support to find and sustain employment are not disadvantaged as a result of the current uncertainty.

Negative instruments

The following instrument was laid before the Parliament on 1 July 2016 and is subject to the negative procedure—

Health and Care Professions Council (Miscellaneous Amendments) Rules Order of Council 2016 (SI 2016/693)
laid under article 42(3)(a) of the Health and Social Work Professions Order 2001

Progress of Legislation

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is three sitting days before the meeting at which those amendments will be considered (e.g. Thursday for a meeting on Tuesday); at Stage 3 it is four days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for Stage 2, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
