Members' Business motions that have not achieved cross party support

***S5M-00578 Stuart McMillan: Eye Health Week**—That the Parliament marks Eye Health Week, which runs from 19 to 25 September 2016; believes that, since the World Health Organization has suggested that 50% of sight loss is preventable, a greater sense of urgency is needed with regard to eye health; is concerned that an ageing population, increases in diabetes and poor diet might contribute to a doubling of the number of visually impaired people in Scotland over the next 20 years; welcomes the continuation of free eye health checks; further welcomes what it believes is vital Scottish Government planning and investment for the long-term to contain sight-threatening diseases and the government's commitment to public eye health campaigns, especially among vulnerable groups where there are reports of low awareness about free eye health checks; understands that these include the lower socio-economic groups, ethnic minority groups and people at high risk through associated health conditions, and thanks the country's eye health professionals, RNIB Scotland, Optometry Scotland, the Scottish Council on Visual Impairment, community-based societies for blind people, Guide Dogs and other third sector organisations for the hard work that they do to support people with sight loss in Greenock and Inverclyde and across Scotland.

Other new and altered motions and amendments

***S5M-00583 James Dornan: Action for Children Scotland, Safeguarding and Supporting Children**—That the Parliament recognises Action for Children Scotland for the work that it does to safeguard and support children in need; understands that its longstanding research work, including the report, *Review of Child Neglect in Scotland* in 2012 in partnership with the University of Stirling, is being used by the Scottish Government to inform future policy development; highlights that Action for Children Scotland and *Holyrood Magazine* facilitated the Child Neglect Workshop for practitioners on 29 June 2016, which will explore the multiple forms that neglect takes, and commends the various sector-leading interventions and toolkits that authorities are using to help practitioners protect and support disadvantaged children and families across Scotland.

***S5M-00580 Jenny Marra: University of Dundee Provides £740 million Economic Boost—**That the Parliament recognises and congratulates the University of Dundee on contributing over £740 million annually to Scotland's economy, according to an economic and social impact study that was carried out by the Fraser of Allander Institute; notes that the report states that, for every £1 of Scottish Government funding, the university generates over £7 for the economy; further notes that one in every 12 jobs in Dundee is supported by its activities, which support over 4,000 jobs across Dundee, Angus, Fife, and Perth and Kinross, a figure that increases to 8,000 when spin-off activity and spending by the students are included; acknowledges that the core activity of the institution is teaching and research, and notes that, in addition to what it sees as it being a major employer and vital driver of business and innovation in Dundee and throughout Tayside, it has been given the accolade of being named the Scottish University of the Year.

Supported by: David Stewart*, Jackie Baillie*, Alex Neil*, Iain Gray*

***S5M-00579 Clare Adamson: National Blueprint for Inflammatory Bowel Disease—**That the Parliament warmly welcomes the publication of *Scotland Leading the Way, A National Blueprint for Inflammatory Bowel Disease in Scotland*, which is the culmination of three years collaborative

work by Crohn's and Colitis UK, the Scottish Government, clinicians, NHS boards and patients; understands that the national blueprint is the first of its kind in the UK and is designed to ensure that people living with inflammatory bowel disease (IBD) in Scotland receive equitable, timely and appropriate care; supports the aims of the report to improve the health and wellbeing of people with the condition as well as their ability to participate in education and work and have a better social and family life; believes that ,if implemented across every NHS board, there will be improved, more equitable and sustainable health services for the 26,000 people in Scotland with IBD; commends the collaborative work undertaken in drawing up the blueprint, and, to help improve health and support services for people with IBD, hopes that it is introduced across all NHS board areas.

***S5M-00577 Angus MacDonald: Pupil Power Secures Fairtrade Status for Bo'ness**—That the Parliament congratulates Bo'ness on becoming the latest recognised Fairtrade Town, through the efforts of pupils from Bo'ness Public Primary School P5 class, their parents and their teacher, Alan Potters; considers that, by challenging the community, retailers and eateries in Bo'ness to commit to fairtrade values, community spirit has been a major factor in helping farmers in developing countries get a fairer deal for their produce; further considers that experience in organising fairtrade breakfasts and pop-up fairtrade shops in the primary school and around Bo'ness town centre has been vital in giving pupils a sense of responsibility towards helping those in developing countries and a sense of ownership of the values that Scotland has in helping people in challenging environments; recognises that Bo'ness becoming a Fairtrade Town is part of a wider network of 1,500 communities worldwide taking practical steps to make a fairer world trade system a reality, and commends P5 at Bo'ness Public Primary School for driving their community to achieve this recognition.

Supported by: Jenny Gilruth*

***S5M-00576 Kenneth Gibson: Stop Albino Killings in Malawi**—That the Parliament calls on the Malawi Government to take action in protecting its citizens with albinism, which is a rare, genetic condition that results in a lack of pigmentation in the hair, eyes and skin; understands that, recently, 18 albino people in Malawi have been abducted and killed and dozens of others have disappeared; further understands that there has been little to no intervention from the police to find the perpetrators; believes that people with albinism have faced discrimination in Malawi for years; is concerned that the 10,000 with the condition face an existential threat and are living in a state of constant fear for their lives due to the superstitious belief that their organs and body parts can be used to bring wealth and cure disease; considers this a deplorable act of barbarism; agrees with Amnesty International in asserting that the Malawi Government has failed to protect albino people; notes the longstanding relationship that Scotland has had with Malawi and calls for more awareness to be spread by addressing and confronting false beliefs and superstitions; further calls for justice to be served to the people carrying out these crimes, and urges both the Scottish Government, and the Commonwealth Parliamentary Association Scotland Branch, to persuade the Malawi Government to protect people with albinism from future attacks.

Progress of Legislation

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is three sitting days before the meeting at which those amendments will be considered (e.g. Thursday for a meeting on Tuesday); at Stage 3 it is four days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for Stage 2, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
