- *...* around a section of text indicates changes to previously published material
- R indicates a member has declared a registered interest

The Parliamentary Bureau periodically deletes motions or amendments that are over six weeks old and not scheduled for debate.

Questions regarding this section should be directed to the Chamber Desk.

***[S5M-06818](#) Rachael Hamilton: 25th Anniversary of the Borders Talking Newspaper**—That the Parliament recognises and congratulates the *Borders Talking Newspaper* on its 25th anniversary; considers that the newspaper, which is based in Duns and Hawick, is a vital resource for people who are completely blind or have visual impairments and want to keep up with local news and issues; believes that it is a simple yet effective measure to counteract the social isolation that can occur as a result of sight problems; considers that the 180,000 people across Scotland who, according to the Royal National Institute for the Blind, have sight problems would benefit from this or a similar service; recognises the numerous volunteers who give up their time to help keep this service available every week for listeners, and wishes the volunteers, organisation and listeners all the best for the future.

***[S5M-06826](#) Rona Mackay: Fair Trade in East Dunbartonshire**—That the Parliament welcomes the awareness-raising of fair trade among children at Lenzie Meadow Primary School through East Dunbartonshire Fair Trade's End-of-Year Event; understands that youngsters engaged in a number of activities, including crafting to better comprehend the principles of fair trade; considers that fair prices should be paid to producers in developing countries by companies in developed

***S5M-06824 John Mason: Independence of Judiciary in Poland**—That the Parliament is greatly concerned by the news that Poland's lower house of parliament has voted through reforms to its legal system, which it understands many fear will lead to a major erosion in the independence of the judiciary; believes that the current system sees the National Judicial Council, which is responsible for enforcing legal and ethical guidelines in the country, appoint judges; understands that the changes proposed by the Law and Justice Party would instead see the power to appoint judges transferred to the Parliament, with another bill being progressed that would see the Justice Minister given the power to replace the heads of the country's courts; believes that this news has sparked concern from a wide variety of human rights groups as well as the European Commission, which it understands has raised the possibility of disciplinary action being taken against the country, which could result in the loss of its EU voting rights; believes that the independence of the judiciary is one of the key building blocks for a healthy functioning democracy, and calls on the Law and Justice Party to step back from implementing the legislation, which it believes damages this independence.

***S5M-06794 Mary Fee: Demolition of the Inchgreen Cranes—**That the Parliament deeply regrets the decision of Peel Ports Clydeport to demolish the three iconic cranes at the Inchgreen dry dock in Port Glasgow; believes that the structures, two of which were constructed by Butters' Brothers & Co Ltd and the other by Sir William Arrol & Co, had been a dominant feature of the Greenock skyline for over 50 years, acting as a visible, tangible symbol of the areas proud and prosperous industrial past; recognises that, at its peak, Inchgreen was one of the largest dry docks in the world and was able to accommodate ships of up to 150,000 tonnes, including the Queen Mary in 1960, Queen Elizabeth in 1965 and Queen Elizabeth II in 1967; believes that Scotland should learn from examples of best practice in the preservation of industrial heritage in other European countries, such as in Croatia, where eight cranes at the Uljanik shipyard in Pula have been transformed in to a popular tourist attraction by a government-funded project, Lighting Giants, which, it understands, has helped preserve and promote that city's industrial heritage by regenerating and modernising the site, and commends the work of the Clyde Docks Preservation Initiative, which is a not-for-profit organisation that aims to restore and preserve iconic and historic maritime sites, on campaigning to save the three cranes from demolition.

S5M-06576 Jackson Carlaw: Hamas-Fatah Rivalry Killing Palestinians—That the Parliament notes with concern reports that the Hamas-Fatah feud has led to the death of three Palestinian babies; believes that Gaza is controlled by Hamas while Fatah retain control of the Palestinian Authority in the West Bank; understands that the report from *The Times* of London suggests that the three babies suffered from heart conditions and died after the Palestinian Authority reportedly refused to pay for them to be treated in Israel; believes that Israeli and Palestinian officials have said that the Palestinian Authority has stopped processing requests for urgent medical care, which it understands has left more than 1,600 patients on waiting lists, and that, according to a health spokesman for the health ministry in Gaza, six adults have also reportedly died waiting for permits, and believes that, sadly, this can and should be seen as a direct result of the power struggle between Hamas and Fatah, which has also reportedly seen the Palestinian Authority President, Mahmoud Abbas, halt shipments of medicine and baby formula to hospitals in Gaza.

***S5M-06576.1 Ivan McKee: Hamas-Fatah Rivalry Killing Palestinians**—As an amendment to motion S5M-06576 in the name of Jackson Carlaw (Hamas-Fatah Rivalry Killing Palestinians), leave out from "that the Hamas-Fatah feud" to end and insert "of recent preventable deaths in the Gaza Strip, including the deaths of three Palestinian babies; understands that these babies and other patients could not be treated in Gaza, where the healthcare system is, it believes, under extreme duress due to the Israeli blockade, which prevents medical equipment from reaching hospitals; considers that responsibility for approving permits for Palestinian patients needing to leave Gaza for medical appointments rests solely with the Israeli authorities; understands that the World Health Organization found that, in May 2017, this approval rate had dropped to its lowest in seven years; considers that Israel's restrictions on access to and from Gaza go far beyond what is permitted by international humanitarian law and human rights law, and calls on the Israeli Government to honour what it believes is the requirement, under the law of occupation as codified in Article 43 of the Hague Regulations, to permit the proper functioning of civil society and its obligations to respect the human rights of Palestinians in Gaza and the West Bank."

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
