***[S5M-12701.1](#) Ivan McKee: Biodegradable Nappies**—As an amendment to motion S5M-12701 in the name of Alex Cole-Hamilton (Biodegradable Nappies), leave out from "nappies" to end and insert "disposable nappies; understands that eight million are disposed of every day; believes that most babies will use approximately 5,000 and that the average time taken for one disposable nappy to decompose is 450 years; considers that the pervasive use of disposable nappies results in unnecessary consumption of finite resources in terms of both raw materials and energy, and that waste is a symptom of this over consumption; understands that reusable nappies use over 98% less raw materials and up to 40% less energy than disposables over a lifetime of use; acknowledges that the Scottish Government's hierarchy of waste is reduce, reuse, recycle, energy recapture (incineration) and disposal (landfill); believes, on this basis, that nappy options that allow for reduction and reuse should be prioritised over those that involve reprocessing of waste; notes that, in a Members' Business debate on 14 September 2016, MSPs debated the benefits of encouraging the use of reusable nappies, which it considers both embody green consumerism and yield real cost savings for local authorities and families, particularly poorer families, and understands that, in Scotland, TotsBots, which is based in the Glasgow Provan constituency, is an award-winning manufacturer of reusable nappies."

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no indication is given that the Scottish Government or UK Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 5 Proposals:

Progress of Legislation

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
