**[S5M-10407](#) Stewart Stevenson: Electronic and Internet Voting**—That the Parliament acknowledges that there is an increasingly wide spectrum of applications for digital technology, including those related to internet shopping, banking, travel and automated supermarket checkouts; understands that the latest digital technology has the potential to be developed for electronic and internet voting and deliver electors flexibility in their choice of voting method; considers that the traditional paper voting method has remained virtually unchanged since 1872 and has yet to benefit from advancements in technology; notes the calls by the Institution of Engineering and Technology for government to embrace the latest knowledge in electronic voting, which it believes will encourage more young people in the Banffshire and Buchan Coast constituency and across Scotland to vote and help reduce the costs of the traditional paper voting system; recognises that there are important security considerations relating to confidentiality and eligibility that must first be resolved; believes that when these issues are resolved and public confidence is earned, electronic voting has the potential to deliver lower cost elections and improve voter turnout; acknowledges what it sees as the opportunity presented by the Scottish Government's consultation on electoral reform to further investigate the potential benefits of electronic and internet voting systems, and notes the calls on individuals and organisations to take part. **R**

## Progress of Legislation

### Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
