***S5M-11038 Gail Ross: VIBES Award Win for Glenmorangie Ltd**—That the Parliament congratulates Dr Peter Nelson, Hamish Torrie, Calum Duncan and WG Sanderson from The Glenmorangie Company Ltd on winning the Hydro Nation category of the 2017 VIBES Scottish Environment Business Awards, which were recently celebrated at an event in the Parliament; recognises that the company's Dornoch Environmental Enhancement Project (DEEP), developed in partnership with The Marine Conservation Society and Heriot Watt University's Centre of Marine Biodiversity and Biotechnology, is an innovative approach to enhancing water quality and biodiversity within the Dornoch Firth; notes that the project will improve water quality through the regeneration of a biogenic oyster reef; commends VIBES Scottish Environment Business Awards for recognising and celebrating the environmental best practice of companies such as The Glenmorangie Company Ltd, and wishes the competition the very best for its 2018 awards, which are now open for applications.

***S5M-11037 Fulton MacGregor: Glenboig Neighbourhood House**—That the Parliament congratulates Glenboig Neighbourhood House on being awarded £1 million from the Regeneration Capital Grants Fund; understands that the fund supports locally-developed projects that demonstrate strong community involvement with a focus on community-led regeneration; further understands that this award is pivotal in making the delivery of the Glenboig Neighbourhood House regeneration aspirations a reality in the development of the community's new purpose-built centre, the Glenboig Life Centre; welcomes the ongoing engagement of all at Glenboig Neighbourhood House with the local community and the important role that both the existing and new centre have in providing a community hub for the promotion of the health and wellbeing of local people; further welcomes that the Regeneration Capital Grants Fund supports projects that put communities first and involve local residents in the regeneration process, and wishes everyone involved the very best of luck for the ongoing project.

***S5M-11030 Joan McAlpine: Congratulations to the Incorporation of Goldsmiths on Silversmithing and Jewellery Ethical Decision-making**—That the Parliament commends the efforts of the Incorporation of Goldsmiths on working with all colleges and universities in Scotland that offer HND or degree-level courses in silversmithing and jewellery; understands that each college and university will pledge to incorporate ethical decision-making in its curriculum through several strands, including establishing student ambassadors for each college, a staged switch to using only ethically-sourced precious metals, workshop techniques and incorporating teaching in relation to ethical decision-making and sourcing into each department's syllabus; congratulates the Incorporation on being, what it believes, the first to create such an initiative and on achieving a national consensus on this, and understands that this will mean that every student completing a Scottish silversmithing and jewellery course will leave with at least the minimum amount of practical and theoretical knowledge about ethical decision-making, which it considers will have an impact on the way that they run their own practices in future.

***S5M-10998 Alison Johnstone: Social Security Experience Panels' Views on Social Security Assessments**—That the Parliament notes the publication of the Scottish Government's report, *About Your Benefits and You*, which summarises the findings of qualitative research with the Social Security Experience Panels; understands that the panels are groups of people with experience of the current social security system, set up in order to help and advise the Scottish Government as it establishes the new Scottish system; notes from the report that the panels expressed serious dissatisfaction with face-to-face assessments undertaken to determine eligibility for disability benefits; believes that respondents described a number of challenges faced in attending face-to-face assessments for Personal Independence Payments, including the accessibility of the buildings that the assessments take place in, and the location of the assessment, in terms of distance travelled and transport links; acknowledges that respondents also suggested that "disability benefit assessments should only be carried out when necessary, and that evidence provided by medical professionals should be enough" to determine eligibility, and believes that face-to-face assessments for devolved benefits should only be undertaken when existing evidence is not sufficient to corroborate an applicant's claim, and that such assessments should be held at a location easily accessible to the applicant.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no indication is given that the Scottish Government or UK Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 5 Proposals:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/12419.aspx>

Final Proposal for Member's Bills

Monica Lennon: Proposed Sanitary Products (Free Provision) (Scotland) Bill—A proposal for a Bill to ensure free access to sanitary products, including in schools, colleges and universities (lodged 7 March 2018)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
