followed by Scottish Conservative and Unionist Party Debate: Education: Subject Choices

S5M-12358 Liz Smith: Education: Subject Choices—That the Parliament notes with concern evidence that shows that, for a substantial number of schools across Scotland, subject choice for S4 pupils has been reduced; believes that this is an unintended consequence of the current structure of Curriculum for Excellence, which also has implications for subject choice in S5 and S6; further believes that this situation is exacerbated by teacher shortages in key subjects, and calls for the Scottish Government to work with local authorities to urgently ensure that all schools adhere to the commitment to provide young people and parents with full details about subject choice options.

The Presiding Officer has selected the following amendments

S5M-12358.4 John Swinney: Education: Subject Choices—As an amendment to motion S5M-12358 in the name of Liz Smith (Education: Subject Choices), insert at end “; recognises that the most significant measure of achievement is when pupils leave school after the three-year senior phase as this defines pupils’ success in accessing work, training or education; congratulates pupils and students across Scotland who have collectively achieved more than 150,000 Higher passes for the third year in a row, including a 4% increase since 2013; welcomes the fact that 93.7% of 2016-17 senior phase school leavers were in a positive initial destination; further welcomes the fact that the proportion of young people in the most deprived areas getting one or more qualifications at SCQF levels 4, 5 and 6 is increasing faster than those in the least deprived areas; agrees that all schools and local authorities across Scotland should be innovative in providing greater choices for young people through creative timetabling and partnership approaches with nearby schools and other partners, such as the Advanced Higher hub at Glasgow Caledonian University, the Virtual School network in The Highland Council and the e-sgoil that has been established in the Western Isles, and further agrees that further work is needed to understand what is on offer to pupils and students, including mapping the availability of Advanced Higher provision across Scotland in line with the recommendation of *The 15-24 Learner Journey Review*.”

S5M-12358.1 Iain Gray: Education: Subject Choices—As an amendment to motion S5M-12358 in the name of Liz Smith (Education: Subject Choices), insert at end “; recognises that there remains a stubborn attainment gap between pupils from the most and least deprived families; notes concerns that the narrowing of curricular choice may be greater in schools in the most deprived areas, and calls for action on this issue and in closing the attainment gap.”

followed by Scottish Conservative and Unionist Party Debate: Housing

S5M-12342 Graham Simpson: Housing—That the Parliament believes that existing legislation is inadequate in dealing with the condition of Scotland's tenement housing stock; backs calls for changes to legislation including, for example, having mandatory building health checks; believes that property factors can play a part in a new system; considers that there are property factor companies that perform their duties well, but that there are some that are performing poorly; acknowledges the limited role of the First-tier Tribunal for Scotland (Housing and Property Chamber) in improving the performance of property factors and considers that the system for members of the public to make complaints should be improved; believes that there is a need for a more robust process to remove property factors that repeatedly break the property factors code of conduct or duties, and calls on the Scottish Government to review the current system.

The Presiding Officer has selected the following amendments

S5M-12342.3 Kevin Stewart: Housing—As an amendment to motion S5M-12342 in the name of Graham Simpson (Housing), leave out from "existing legislation" to "in a new system" and insert "tenement housing stock, as defined in the Tenements (Scotland) Act 2004, is an important housing sector for many people in Scotland and that maintenance of this stock is vital for all those owning and living in the sector and to wider society; notes the creation and ongoing work of the cross-party supported Working Group on Maintenance of Tenement Scheme Property; agrees that a review should be carried out of relevant existing legislation and of how tenement housing in Scotland could potentially be better maintained and enhanced, which should include consideration of the potential costs and impact of mandatory building health checks, new initiatives that would help facilitate owners to collectively undertake maintenance of tenement communal property, and what is the best role for property factors".

S5M-12342.2 Pauline McNeill: Housing—As an amendment to motion S5M-12342 in the name of Graham Simpson (Housing), leave out from "including" to end and insert "following a thorough review of the gaps in existing law, which would include the consideration of mandatory building health checks; believes that property factors can play a part in a new system; considers that there are property factor companies that perform their duties well, but that there are some that are performing poorly; acknowledges the limited role of the First-tier Tribunal for Scotland (Housing and Property Chamber) in improving the performance of property factors and considers that the system for members of the public to make complaints should be improved; believes that there is a need for a more robust process to remove property factors that repeatedly break the property factors code of conduct or duties; calls on the Scottish Government to review the current system, and believes that more should be done to encourage owners to set up co-operative arrangements as an alternative to factoring to assist in the management of their properties."

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no indication is given that the Scottish Government or UK Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 5 Proposals:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/12419.aspx>

Final Proposal for Member's Bills

David Stewart: Proposed Social Housing (Automatic Fire Suppression Systems) (Scotland) Bill—Proposal for a Bill to require new-build Scottish social housing to be fitted with automatic fire suppression systems. (lodged 22 May 2018)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

Progress of Legislation

Bills

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<http://www.scottish.parliament.uk/parliamentarybusiness/Bills/576.aspx>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
