followed by Scottish Conservative and Unionist Party Debate: Concern Over the State of Scotland's Ferry Services

S5M-14520 Jamie Greene: Concern Over the State of Scotland's Ferry Services—That the Parliament raises its concern over the provision of Scotland's ferry services, which have seen significant delays, disruptions and cancellations over the last 12 months to the detriment of Scotland's island and rural communities; notes that CalMac Ferries' managing director described this summer's disruptions as the worst in eight years and admitted that there is currently no resilience in the network based on the lack of additional available vessels in case of breakdowns; recognises the comments made by Audit Scotland in its 2017 report, *Transport Scotland's ferry services*, in which it called for a new long-term ferry strategy; recognises the necessity of ferries in boosting tourism and providing vital public services to island communities, and calls on the Scottish Government to remedy these failings and restore public confidence in Scotland's ferry network.

The Presiding Officer has selected the following amendments

S5M-14520.4 Paul Wheelhouse: Concern Over the State of Scotland's Ferry Services—As an amendment to motion S5M-14520 in the name of Jamie Greene (Concern Over the State of Scotland's Ferry Services), leave out from "raises" to end and insert "notes the concerns regarding the provision of Scotland's lifeline ferry services to island and rural communities and acknowledges the frustration to customers in the event of service failures; further acknowledges the significant actions that have been taken to address those concerns to support the continued socioeconomic development of Scotland's remote and island communities; recognises the commendable work of ferry operators' crew and staff in maintaining high levels of performance; notes the ongoing review of investment plans and priorities, including the development of an action plan to further address resilience issues on the Clyde and Hebrides network; recognises the continued significant levels of investment in upgraded infrastructure; acknowledges the commitment to an inclusive approach to vessel design and procurement, which includes communities, public sector partners and trade unions, and acknowledges the positive contribution that ferries procurement is making to Scotland's ambitious strategy to reduce greenhouse gas emissions generated by its ferry operations."

S5M-14520.3 Colin Smyth: Concern Over the State of Scotland's Ferry Services—As an amendment to motion S5M-14520 in the name of Jamie Greene (Concern Over the State of

Scotland's Ferry Services), insert at end “; recognises that ferry capacity must be able to meet demand and that the funding and purchasing of new ferries needs to be transparent, and calls on the Scottish Government to bring forward a long-term ferry strategy, accompanied by a comprehensive implementation and delivery plan, and a national shipbuilding strategy detailing its long-term ambitions for the sector and setting out a 30-year programme of work.”

followed by **Scottish Conservative and Unionist Party Debate: Early Years**

S5M-14521 Alison Harris: Early Years—That the Parliament is committed to improving the availability of, and flexibility in, the provision of high-quality childcare; recognises that, in order to deliver the Scottish Government’s ambitions, there has to be much more effective partnership working between state and private sector providers; is very concerned therefore at the recent findings that have been issued by the National Day Nurseries Association, which show that fewer than one-third of private sector providers are currently in a position to expand place numbers because they feel that there has been a lack of engagement from both the Scottish Government and some local authorities when addressing their concerns about access to capital funding and the lower payments being made to many private sector providers; believes that these concerns are in line with those set out by Audit Scotland earlier in 2018, when it reported that there were “significant risks” within the current Scottish Government policy on childcare, and demands urgent action from the Scottish Ministers to ensure that private sector providers, as well as state sector providers, are able to meet their full potential when it comes to delivering expanded childcare.

The Presiding Officer has selected the following amendments

S5M-14521.2 Maree Todd: Early Years—As an amendment to motion S5M-14521 in the name of Alison Harris (Early Years), leave out from “recognises that” to end and insert “reconfirms its support for expanding the provision to 1,140 hours of funded, high-quality early learning and childcare for all three- and four-year-olds and for eligible two-year-olds through a provider-neutral approach; believes that all frontline staff delivering the 1,140 hours provision must be paid the real living wage; welcomes that funding for the real living wage formed part of the £1 billion multi-year funding package agreed with local government; recognises the concerns expressed by some private providers on local engagement and investment; further recognises recent progress, including the adoption of partnership working principles by COSLA and the creation of an Early Learning and Childcare Partnership Forum; believes that there is a need to ensure best practice on partnership working and investment, such as the approaches adopted in Angus, the City of Edinburgh and Moray that were commended recently by members of the partnership forum, and agrees that the Scottish Government must work with COSLA, individual local authorities and providers themselves to ensure that best practice is replicated in all parts of Scotland.”

S5M-14521.1 Mary Fee: Early Years—As an amendment to motion S5M-14521 in the name of Alison Harris (Early Years), insert at end “, and that this action should include publishing data on the size of the current workforce, as well as information on how the Scottish Government expects to meet staffing targets, given that it estimated that up to 11,000 additional early learning and childcare workers will be required by 2020 to deliver the planned expansion.”

Motions for Debate

***[S5M-14548](#) Aileen Campbell: A Place of Safety: Supporting Asylum Seekers in Scotland**—That the Parliament believes that Scotland must be a place of safety for people seeking asylum; agrees that those seeking asylum should be supported to integrate in Scotland's communities and rebuild their lives from day one of arrival; believes that the asylum system must treat people fairly and with dignity and respect at all times; considers that the UK Government must work in equal partnership with devolved governments and local government and provide local authorities with the resources required to support people dispersed to their areas; believes that accommodation provided to people seeking asylum must meet Scottish quality standards and be appropriate to their needs; considers that people seeking asylum should be allowed to work while their claim is being assessed to help rebuild their lives; recognises that there must be a long-term sustainable solution that does not leave people destitute or homeless at the end of the asylum process, and considers that refugee resettlement programmes provide a model of partnership working and integration support that should be replicated in the asylum system.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no indication is given that the Scottish Government or UK Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at Proposals for Members' Bills/Session 5 Proposals:

Final Proposal for Member's Bills

Jeremy Balfour: Proposed Pet Shop (Licensing) (Scotland) Bill—Proposal for a Bill to improve animal welfare by enhancing local authority pet shop licensing powers and updating the licensing system currently set out in the Pet Animals Act 1951, including in relation to licence conditions, fees and inspections. (lodged 24 October 2018)

The proposal was accompanied by a summary of consultation responses, which is accessible online via the website page referred to above. The summary, and individual responses, may also be viewed in the Scottish Parliament Information Centre (SPICe).

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
