Members' Business motions that have achieved cross party support

***S6M-00900 Monica Lennon: Our Climate Our Buses Campaign**—That the Parliament welcomes the new campaign, Our Climate, Our Buses, led by the STUC; notes the view that, ahead of COP26, everyone needs to take action to reduce transport emissions, in light of them reportedly being Scotland's largest source of greenhouse gas emissions; understands with concern that, since a previous UK Conservative administration deregulated buses, passenger journeys have fallen from 644 million in 1987 to 366 million in 2020; further understands that Scotland's only municipal bus company, Lothian Buses, has bucked this trend; notes that the campaign, Our Climate, Our Buses, is calling for an extension of municipal bus ownership across Scotland, and has gained the support of unions such as Unite the Union, which represents bus workers, as well as trades councils across Scotland, the Poverty Alliance, Friends of the Earth Scotland, Engender, Common Weal, Get Glasgow Moving, the International Transport Workers' Federation, One Parent Families Scotland, and the Young Women's Movement, and notes the calls on the Scottish Government to provide financial support for local authorities, including those in the Central Scotland region, to establish publicly-owned bus companies and take back control of their bus networks. ***S6M-00876 Christine Grahame: Deed Not Breed**—That the Parliament notes the 30th anniversary of the Dangerous Dogs Act 1991, which was introduced by the UK Government; further notes the calls by campaigners and a number of welfare groups, including the Scottish Society for the Prevention of Cruelty to Animals (Scottish SPCA), for this to be reviewed and reformed; understands that the Act in its present form requires rescue centres to euthanise those dogs in their care that are proscribed by the Act based on certain physical characteristics identifying them as Japanese Tosa, Dogo Argentino, Fila Brasileiro or American Pit Bull type dogs, regardless of temperament or past behaviour, resulting in any dogs meeting this physical standard open to euthanising or extensive restrictions placed upon them; acknowledges that the Scottish SPCA and others are calling for an alternative approach that relies on identifying dangerous dogs based on their behaviour and temperament, rather than solely their breed or perceived breed, and notes that, in Scotland, the Control of Dogs (Scotland) Act 2010 provides for early intervention for dogs exhibiting concerning behaviour with the issuing of a Dog Control Notice to the owner to bring and keep the dog under control; believes that, while protection of the public, including people

in the Midlothian South, Tweeddale and Lauderdale constituency, is of paramount importance, the Dangerous Dogs Act 1991 is fundamentally flawed and unjust, and notes the view that there would be benefits to protection of the public, the welfare of dogs and the responsibilities of owners if the Control of Dogs (Scotland) Act 2010 was more widely publicised. **R**

***S6M-00874 Michael Marra: Brechin Healthcare Group**—That the Parliament recognises the hard work and dedication of the community volunteers of the Brechin Healthcare Group; believes that the group is working hard to deliver vital health and education services locally in partnership with businesses, the NHS and the third sector, and that those services have proven to be vital during the COVID-19 pandemic; further believes that local services, including drug, mental health and sexual health services, are vital for the community; understands that the group's future plans require relocation to more appropriate facilities; further understands that the group has identified the site of the former Brechin Infirmary as the ideal location; notes that the group has applied for a community asset transfer of the infirmary buildings, and wishes everyone involved the best of luck in delivering this exciting project.

Members' Business motions that have not achieved cross party support

***S6M-00914 Gordon MacDonald: Community Champions During the COVID-19 Pandemic**—That the Parliament recognises the contribution of community champions during the COVID-19 pandemic, who have supported individuals and families who have been hit hard throughout this incredibly tough period; commends, in particular, Linda Williams of the Premier Broadway Convenience Store in Oxfords, Edinburgh, for her continuing efforts to raise and disburse funds and donations from a hardship fund that she started at the beginning of lockdown in 2020; understands that the hardship fund was initially set up with the goal of raising £300 to help members of the local community who were adversely affected by lockdown, and went on to raise over £9,000 in the first two weeks, which was met by a further £1,000 donation from the store; appreciates that the fund has been used to help people who are experiencing financial difficulties with food, gas or electricity in the Oxfords, Colinton Mains, Firhill and surrounding areas; recognises that, throughout lockdown, the store has also been taking telephone orders for free delivery to individuals who are self-isolating; congratulates Linda on winning the COVID Hero of 2020 award at the Scottish Local Retailer Awards for her work in setting up and running the hardship fund; thanks Linda, the staff of the Premier Broadway Convenience Store and all those who donated to the hardship fund for their efforts to support the local community throughout this difficult time, and believes that the outstanding community spirit and kindness shown by people over the last 18 months has been inspirational.

***S6M-00907 Kenneth Gibson: Preventing the Taliban from Flooding Communities with Heroin**—That the Parliament marks with sadness the reported increase in drug deaths in Scotland to 1,339 during 2020; recognises that the UN Office on Drugs and Crime reportedly estimates that 80% of the world's heroin and opium supply originates in Afghanistan, which is once again under Taliban rule and, it considers, able to pursue completely unbridled production of opium and heroin

that, it believes, will likely lead to its price falling; understands that three of the last four years have seen some of Afghanistan's highest levels of opium production and, even during the COVID-19 pandemic, poppy cultivation increased by 37% last year; further understands with concern that revenue from the heroin and opium trade provides the Taliban with an estimated 60% of its income, and notes the calls on the UK Government to work with its allies and international partners to aid refugees, improve security and prevent the Taliban, and any organised criminal gangs that work with them, from flooding communities in the Cunninghame North constituency, Scotland and across the globe with yet more heroin.

Supported by: Siobhian Brown*, Stuart McMillan*, Bill Kidd*

***S6M-00875 Rhoda Grant: Community Wealth and the Emergence of "Green Lairds"**—That the Parliament notes emerging developments in the market for land, with what it sees as a growing emphasis on the purchase of land for climate-related reasons; notes recent commentary referring to new owners of such land as "green lairds"; understands that Scotland has a pattern of highly-concentrated, private land ownership by international standards; believes that the operation of the Scottish land market is largely unregulated and that the purchase of substantial areas of land serves wealthy, private buyers in particular; understands that ownership of land in Scotland provides access to substantial public funding and tax arrangements, which support the building of private wealth; regrets what it sees as the commodification and financialisation of the climate emergency through the market for land; notes what it sees as the Scottish Government's commitment to community wealth building, to a just transition through the climate emergency, and to the progressive realisation of people's economic, social and cultural human rights; considers that securing more community ownership of land would be a key means to deliver greater community wealth, a more just transition through the climate emergency and progress toward the realisation of social, economic and cultural rights, including in the Highlands and Islands region, and notes the calls on the Scottish Government to consider land-market regulation and public expenditure controls to achieve greater equity and benefit-sharing from public policy, and to make significantly greater ownership of land and built assets by local communities a strategic priority in building community wealth and empowering communities in responding to the climate emergency.

Other new and altered motions and amendments

***S6M-00918 Neil Bibby: Rejection of 10% Cuts to Rail Services**—That the Parliament notes the recent report prepared for the ScotRail operators, Abellio, by Professor Iain Docherty; understands that the report considers a 10% cut to rail services on pre-pandemic levels and questions the future of ticket offices; notes the joint statement issued by the trade unions, ASLEF, RMT, TSSA and Unite, calling on the Scottish Government to reject the report, which they reportedly believe "seeks to exploit the Covid pandemic and its fallout to attack the jobs of railway workers and cut the services they provide to the public"; recognises what it sees as the economic and social value of public transport and importance of the rail network to Scotland's net zero ambitions, and considers, therefore, as Scotland prepares to host the COP26 summit, that the Scottish Government should reject the report and develop an alternative vision for a sustainable, publicly-owned ScotRail.

Supported by: Martin Whitfield*, Paul O'Kane*, Richard Leonard* R, Monica Lennon* R

***S6M-00913 Karen Adam: Peterhead Producers' Market**—That the Parliament commends the work of Rediscover Peterhead in setting up and running Peterhead Producers Market;

***S6M-00910 Karen Adam: Recognition of North East Open Studios**—That the Parliament recognises the work of North East Open Studios (NEOS); wishes it success in its forthcoming open week, taking place from 11 to 19 September 2021, which will see arts and craft studios across the North East and Banffshire Buchan Coast open their doors and welcome the public; recognises the positive impact that arts and crafts can have on people's mental health, and commends community projects that make art accessible and affordable to all.

***S6M-00908 Jeremy Balfour: Calls for a Doubling of the Scottish Child Payment in the 2021 Programme for Government**—That the Parliament understands that a coalition of 120 anti-poverty organisations, children's charities, community groups, think tanks, trade unions, faith leaders and academics have written to the First Minister urging her to "do the right thing", by using the forthcoming Programme for Government to commit to doubling the Scottish Child Payment in

the 2021-22 budget; shares the view expressed by the coalition that doubling the payment now would “signal that ending child poverty will be a defining priority for this Scottish Government and Scottish Parliament”; understands that all five of the main political parties committed to the move ahead of the 2021 Holyrood elections; considers that the Scottish Government has failed to set a timescale for the doubling of the payment, stating only that it will take place by the end of the current parliamentary session in 2026, and urges the Scottish Government to act on this clear and urgent call from a wide cross-section of Scottish society.

Supported by: Monica Lennon*, Douglas Ross*, Annie Wells*

***S6M-00906 Liam Kerr: Sport Aberdeen Wins at Prestigious Awards—**That the Parliament congratulates Sport Aberdeen on being named as a winner at the ukactive Awards 2021, a UK-wide awards ceremony celebrating the active lifestyle sector, which took place virtually on 12 August 2021; understands that the award recognises the success of Sport Aberdeen’s Supported Physical Activity for Care Experienced (SPACE) project, which was delivered in partnership with Aberdeen City Council, and is the first of its kind in Scotland to provide support for care experienced young people to achieve positive destinations by using sport as a catalyst for positive change; notes that the project has continued to support vulnerable children and young people across the city throughout the COVID-19 pandemic; commends all the team at Sport Aberdeen, Aberdeen City Council and the community supporters involved in the project for their hard work and dedication, and wishes them continued success.

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
