***[S6M-00588](#) Marie McNair: The Erskine Bridge Turns 50**—That the Parliament commemorates 50 years of the Erskine Bridge, which was the first link between West Dunbartonshire and Renfrewshire over the River Clyde, replacing the Erskine Ferry; understands that the crossing was opened on 2 July 1971 by HRH Princess Anne and for a period of time, it was the longest cable-stayed bridge in the world; notes that the bridge is 1.3km in length and 30m wide, with its tallest support measuring 50m, allowing it to play an important role in carrying over 35,000 vehicles every day; acknowledges that the Erskine Bridge has been listed for unique architectural and technical features, and remains one of the most ambitious civil engineering projects ever undertaken in Scotland, so it's important to recognise the impact it has made in the past 50 years.

***[S6M-00587](#) Alexander Stewart: Duncan Scott Graduates from the University of Stirling**—That the Parliament congratulates British Olympian Duncan Scott on his graduation from the University of Stirling; understands that the swimming athlete, who will leave for Japan next week as part of Team GB, received a 2:1 in Business and Sports Studies after successfully combining his degree with his record-breaking career in the pool; acknowledges that Duncan who grew up in Alloa, broke two British freestyle records whilst qualifying for the Tokyo Games, has been part of Stirling's Sports Scholarship Programme for the last six years, giving him the flexibility to balance his degree with training; notes that the sports champion acknowledges personally that despite his successes in the pool, completing his degree is amongst his top achievements saying that one of the things he is most proud of is achieving a 2:1 despite not really enjoying school as a result of his dyslexia and having to balance it with swimming but he eventually ended up enjoying university; views Duncan as a shining example to all young people; commends him on his focus, discipline and success, and wishes Duncan and all Team GB the very best of success in Tokyo.

***S6M-00585 Jackie Baillie: Fiftieth Anniversary of the Erskine Bridge** —That the Parliament celebrates the 50th anniversary of the opening of the Erskine Bridge; notes that the landmark bridge was opened in July 1971 by Princess Anne; understands that the bridge, which took four years to build, has become an icon of the West of Scotland landscape; notes with interest that it is the largest bridge which connects communities either side of the Clyde; celebrates the fact that Historic Environment Scotland granted the bridge A-listed status three years ago, describing the bridge as a “state-of-the-art infrastructure landmark in Scotland”; gives credit to the hard fought local campaign spearheaded by Labour politicians working alongside local people which saw the Erskine Bridge toll charge removed on 1 April 2006; acknowledges that this has led to a positive impact on tourism and the West of Scotland economy; further acknowledges that people living on both sides of the bridge in Erskine and Old Kilpatrick had planned to celebrate the 50th anniversary by marching to meet in the middle of the bridge but celebrations had to be postponed due to COVID-19, and hopes that these communities will be able to celebrate this worthy landmark's impressive anniversary in the near future.

***S6M-00582 Monica Lennon: Remove Discredited BBC Bitesize Climate Change Lessons** —That the Parliament expresses concern that BBC Bitesize online study support resources on climate change contain a list of positive impacts of a warmer global climate; understands that the so-called positive impacts listed include “more resources, such as oil, becoming available in places such as Alaska and Siberia when the ice melts” and that “warmer temperatures could lead to healthier outdoor lifestyles;” believes that this online resource should immediately be reviewed and updated and welcomes a commitment from the BBC to undertake a review, following the intervention of writer and environmental activist, George Monbiot, and a public backlash; is concerned that learners are being prompted to consider the environmental and economic benefits of climate change; believes that the geography course specification published by the Scottish Qualifications Authority and other climate change content must be urgently reviewed; considers that heatwaves are causing damage to people, property and nature, including as a result of a devastating fire in Lytton, British Columbia, where residents have been forced to flee their homes after multiple days of unprecedented heat, with temperatures reaching 49.6 centigrade, a Canadian record, leading to fast-spreading fires; believes that urgent action is needed to address the dual threats of the climate emergency and nature emergency, and agrees that climate justice

***S6M-00581 Liam McArthur: Pay Student Paramedics Campaign Success** —That the Parliament congratulates the Pay Student Paramedics campaign on its well-deserved victory, securing a new bursary ahead of the start of the new academic term; notes that the campaign was started by a group of student paramedics in August 2020 to highlight the discrepancy between the bursaries made available to students paramedics and those studying other disciplines, and to press for equivalent funding to be made available to all Scottish student paramedics; recognises that reports have shown a majority of student paramedics have lived below the poverty line despite being expected to work the same hours as fully-qualified paramedics, and therefore have limited time to take on additional work to fund their studies; acknowledges that the Scottish Parliament held a debate on the issue in October 2020; appreciates the pivotal role that paramedics have played in meeting the challenges of the COVID-19 pandemic, and that student paramedics have stepped up at a time of great need; acknowledges that student paramedics, unlike student nurses and midwives, have until now had no access to a bursary scheme to support them during their degree course; hails this as a great achievement for student paramedics across the country, and hopes the decision will now encourage more young people to enter the profession.

Progress of Legislation

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.
