12:45 pm Members' Business Debate on the subject of—

[S6M-00875](#) Rhoda Grant: Community Wealth and the Emergence of "Green Lairds"—That the Parliament notes emerging developments in the market for land, with what it sees as a growing emphasis on the purchase of land for climate-related reasons; notes recent commentary referring to new owners of such land as "green lairds"; understands that Scotland has a pattern of highly-concentrated, private land ownership by international standards; believes that the operation of the Scottish land market is largely unregulated and that the purchase of substantial areas of land serves wealthy, private buyers in particular; understands that ownership of land in Scotland provides access to substantial public funding and tax arrangements, which support the building of private wealth; regrets what it sees as the commodification and financialisation of the climate emergency through the market for land; notes what it sees as the Scottish Government's commitment to community wealth building, to a just transition through the climate emergency, and to the progressive realisation of people's economic, social and cultural human rights; considers that securing more community ownership of land would be a key means to deliver greater community wealth, a more just transition through the climate emergency and progress toward the realisation of social, economic and cultural rights, including in the Highlands and Islands region, and notes the calls on the Scottish Government to consider land-market regulation and public expenditure controls to achieve greater equity and benefit-sharing from public policy, and to make significantly greater ownership of land and built assets by local communities a strategic priority in building community wealth and empowering communities in responding to the climate emergency.

followed by Scottish Government Debate: Impact of Brexit on Scotland's Supply Chain and Labour Market

[S6M-01444](#) Angus Robertson: Impact of Brexit on Scotland's Supply Chain and Labour Market—That the Parliament believes that the UK Government's chaotic hard Brexit policy is damaging recovery from the COVID-19 pandemic; deplores the decision of the UK Government to ignore detailed evidence from the Scottish Government and others about the harm that would be caused by removing Scotland and the UK from the European single market and customs union in the middle of the public health crisis; calls on the UK Government to immediately introduce a Temporary Worker Route, extended to 24 months, to alleviate some of the damage that it has caused, as part of a replacement immigration system that will both reduce the harm of Brexit and treat people with dignity and respect; recognises that the UK Government's failure to introduce such a scheme has led directly to serious levels of vacancies in hospitality, distribution, social care, construction, food production, agriculture and tourism, among other sectors; further recognises that this will only mitigate in part the negative consequence for Scotland of ending the benefits of EU membership, including freedom of movement; believes that the UK Government's actions and lack of action have led directly to serious petrol and diesel shortages on forecourts and to food supply shortages; further believes that these failures are felt across society and most acutely by the poorest, and agrees that, in a rich country like Scotland, the chaos of recent weeks and the deliberate targeting of the poorest in society make clear the heavy cost imposed on people in Scotland by a UK Government that they did not elect.

The Presiding Officer has selected the following amendments

[S6M-01444.1](#) Donald Cameron: Impact of Brexit on Scotland's Supply Chain and Labour Market—As an amendment to motion S6M-01444 in the name of Angus Robertson (Impact of Brexit on Scotland's Supply Chain and Labour Market), leave out from "believes that the UK Government's chaotic" to end and insert "recognises that the UK Government respected the result of the EU referendum and delivered a deal with the EU, which allows the UK to trade freely with other states to the benefit of Scottish goods and services; welcomes the UK Government's response to the Europe-wide shortage of HGV drivers by issuing 5,000 temporary visas for drivers to come to the UK; further welcomes the UK Government's positive engagement with the food and drink sector resulting in 5,500 temporary visas being issued to enable the poultry industry to prepare for Christmas, and believes that the Scottish Government should work constructively with the UK Government to ensure the success of the UK-EU Trade and Cooperation Agreement."

[S6M-01444.3](#) Sarah Boyack: Impact of Brexit on Scotland's Supply Chain and Labour Market—As an amendment to motion S6M-01444 in the name of Angus Robertson (Impact of Brexit on Scotland's Supply Chain and Labour Market), leave out "by a UK Government that they did not elect." and insert "; recognises that breaking up economic and political unions has deeply damaging consequences, and creating borders has costs; believes that people have been let

down by a lack of planning and joint working by both the Scottish and UK governments, and calls on the Scottish and UK governments to act together to resolve the shortage of workers in key sectors of the economy and ensure that people have access to employment opportunities, training and financial support as Scotland comes through the COVID-19 pandemic and rebuilds its communities."

New Subordinate Legislation

New Subordinate Legislation

Made Affirmative instruments

The following instrument was laid before the Parliament on 29 September 2021 and is subject to the made affirmative procedure—

Health Protection (Coronavirus) (International Travel and Operator Liability) (Scotland) Amendment (No. 2) Regulations 2021 (SSI 2021/343)
Laid under section 122(6) and (7) of the Public Health etc. (Scotland) Act 2008

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
