Motions

Motions and amendments are usually printed the day after lodging. When an amendment is lodged, then the original motion will be republished alongside it.

Motions and amendments can be published with symbols:

- * before the number indicates publication for the first time
- *...* around a section of text indicates changes to previously published material
- R indicates a member has declared a registered interest

The Parliamentary Bureau periodically deletes motions or amendments that are over six weeks old and not scheduled for debate.

Questions regarding this section should be directed to the Chamber Desk.

***[S6M-02799](#) John Swinney: Health Protection (Coronavirus) (Requirements) (Scotland) Amendment Regulations 2022 (SSI 2022/6)**—That the COVID-19 Recovery Committee recommends that the Health Protection (Coronavirus) (Requirements) (Scotland) Amendment Regulations 2022 (SSI 2022/6) be approved.

***[S6M-02796](#) Stuart McMillan: Janice Burns and Linda Clarke Retire After Almost 40 Years in the Classroom**—That the Parliament wishes Janice Burns and Linda Clarke a happy and relaxing retirement after clocking up almost 40 years between them as classroom assistants in Inverclyde; notes that Janice, 61, and Linda, 63, have worked in education for 21 and 19 years, respectively; recognises the positive impact that Janice and Linda have had on pupils at St Gabriel's Primary School, which amalgamated with Sacred Heart Primary School 10 years ago to become St Andrew's Primary School; believes that Janice and Linda will be missed by pupils and colleagues alike, and wishes them both all the best as they look forward to retirement.

Supported by: Stephanie Callaghan*, Siobhian Brown*

***[S6M-02738](#) Paul Sweeney: Hunterston B Nuclear Power Station Ends Electricity Generation After 46 Years**—That the Parliament notes the retirement of Hunterston B nuclear power station on 7 January 2022, which is understood to have been the most productive clean energy asset in Scottish history, producing a reported 297 terawatt hours (TWh) of low-carbon electricity; further understands that Hunterston B produced enough low-carbon electricity to power every home in Scotland for 31 years, and has saved 224 million tonnes of carbon dioxide emissions; notes reports that all but one of the UK's existing nuclear reactor plants will retire by 2028, removing 7.6 gigawatts (GW) of clean, always-on electricity from the grid; welcomes what it sees as the positive steps that Scotland has taken towards decarbonisation, particularly that 100% of Scotland's gross electricity demand in 2020 was provided by renewables; notes that this figure only represents gross demand and understands that Scotland itself did not use all of this electricity; understands that 30% of Scotland's electricity consumption came from nuclear power in 2020, the most of any UK nation; further understands that the Climate Change Committee has stated that clean electricity capacity must quadruple by 2050 and that two-fifths of this should be

from "firm" power sources; believes that nuclear energy is the only commercially-viable source of firm, low-carbon power; understands that the Climate Change Committee anticipates that 10 GW of total nuclear capacity will be required in 2035, and up to 32 GW in 2050; notes the Scottish Government's stated opposition to the building of new nuclear power stations in Scotland, and considers that this goes against the reported independent scientific and technical consensus from bodies, including the Climate Change Committee, International Energy Agency, Organisation for Economic Co-operation and Development, and the United Nations, which it understands states that nuclear power is both a low-carbon solution and one that provides the lowest-cost energy system overall; expresses its concern that, in the short term, the gap in capacity from Hunterston B's closure will, it understands, have to be filled, in part, by imported gas that is sourced from potentially extremely volatile global markets; considers that what it sees as the Scottish Government's anti-civil nuclear position will mean that, as with the wind industry, jobs and economic benefit associated with the nuclear power that Scotland needs in order to achieve net zero, will be exported, and notes the calls for the Scottish Government to revise its position on the build of new nuclear power stations, especially given what it sees as the opportunity presented by the latest technological advancements, such as Small Modular Reactors and proposals for fourth generation fail-safe and zero-waste reactor designs, to enable Scotland to have a secure, low-carbon electricity future.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
