followed by Members' Business Debate on the subject of—

[S6M-07156](#) Richard Leonard: Caledonian Sleeper Service—That the Parliament welcomes that ScotRail Services transferred into public ownership on 1 April 2022 and that Scotland's rail

passenger services are operated by Scottish Rail Holdings Ltd, a company owned and controlled by the Scottish Government; notes that the sleeper service between Scotland and England is approaching its 150th anniversary; recognises what it sees as the significant social, economic and environmental values of the Caledonian Sleeper service, including for the Central Scotland region; notes that the current franchise is due to end in June 2023, following the Scottish Government's decision not to rebase the franchise; further notes that the Scottish Government has not yet confirmed how sleeper services will be operated from June 2023 onwards; notes the view that this is the ideal opportunity to bring the Caledonian Sleeper Service into public ownership via established structures and reintegrate the sleeper service with ScotRail and that, in so doing, the public purse would not be expected to fund profits for a private operator of the service, and further notes the calls on the Scottish Government to confirm that it will not give Serco a further contract for the Caledonian Sleeper service and that it will instead use a Scottish Government-owned company to run the service from June 2023. followed by Scottish Government Debate: National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives

[S6M-07469](#) Angela Constance: National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives—That the Parliament welcomes the cross-

government response to the Scottish Drug Deaths Taskforce final report, *Changing Lives*; supports the transformational principles underpinning that response of treating problem drug use as any other health condition is treated, and ensuring that people with lived and living experience of problem drug use are included in the co-production of policy and strategy development in any area of government policy or delivery that affects them; recognises that cross-government planning and activity is needed to support the National Mission, and that this has resulted in over 80 actions; acknowledges the publication of the stigma action plan, which will play a vital role in the culture change required, and recognises the role of the Scottish Parliament in this regard, and believes that, with commitment across government, the Parliament and beyond, it is possible to save lives and improve health and wellbeing.

The Presiding Officer has selected the following amendments

[S6M-07469.3](#) Sue Webber: National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives—As an amendment to motion S6M-07469 in the name of Angela Constance (National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives), leave out from "cross-government response" to end and insert "publication of the Scottish Drug Deaths Taskforce final report, *Changing Lives*; supports the transformational principles of treating problem drug use as any other health condition is treated, and ensuring that people with lived and living experience of problem drug use are included in the co-production of policy and strategy development in any area of government policy or delivery that affects them; recognises that cross-government planning and activity is needed to support the National Mission, and that this has resulted in over 80 actions; acknowledges the publication of the stigma action plan, which will play a vital role in the culture change required, and recognises the role of the Scottish Parliament in this regard; believes that, with commitment across government, the Parliament and beyond, it is possible to save lives and improve health and wellbeing; welcomes many of the report's recommendations, including that individuals should never be turned away from treatment and therefore urges the Scottish Government to back Douglas Ross's Proposed Right to Addiction Recovery (Scotland) Bill, which would enshrine in law a right to treatment, so that all people with addiction in Scotland can get the support they need; notes that the report states that "While we believe legislative change is required, more should – and can – be done in Scotland under current constitutional arrangements"; believes that the Scottish Government should accelerate its focus on tackling drug-related deaths until there is a meaningful and sustained downward trend in the number of drug-related deaths; regrets, therefore, the recent decision to cut the alcohol and drugs budget for 2022-23 by £1 million; notes, with disappointment, that the Scottish Government failed to introduce Medication Assisted Treatment standards by April 2022, and calls for urgent action to be taken to ensure standards 1-5 and 6-10 are fully implemented by April 2023 and April 2024, respectively."

[S6M-07469.2](#) Paul O'Kane: National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives—As an amendment to motion S6M-07469 in the name of Angela Constance (National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives), insert at end "; regrets that over 12,000 people in Scotland have tragically lost their lives to drugs since 2007; notes that it is three and a half years since the Scottish Government established its Drug Deaths Taskforce, but that the most recent figures show the second highest number of drug-related fatalities on record; is concerned by the slow progress with implementing the Medication Assisted Treatment standards, in addition to concerns that the proposed National Care Service could distract from Alcohol and Drug Partnerships (ADP) in delivering these standards, and calls on the Scottish Government to urgently publish a workforce action plan for ADPs."

[S6M-07469.1](#) Alex Cole-Hamilton: National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives—As an amendment to motion S6M-07469 in the name of Angela Constance (National Drugs Mission: Cross-government Response to the Drug Deaths Taskforce Report, Changing Lives), insert at end "; further believes that the Scottish Government must use its response to the Drug Deaths Taskforce report to propel effective and immediate action to tackle the continuing high numbers of drugs deaths in Scotland; asserts that there are some actions which can be undertaken now, such as the implementation of drugs testing facilities, as seen in other parts of the UK, at events such as festivals, to prevent harm; acknowledges the current work being done to implement safe consumption facilities in Edinburgh and Glasgow, and calls on the Scottish Government to start preparing plans immediately for a Scotland-wide network of facilities so that those outside of the central belt have access to lifesaving spaces."

Debate on the subject of—**

[S6M-06368](#) Stephanie Callaghan: Circular Fashion: Looping the Thread—That the Parliament encourages the adoption of circular fashion methods that ensure clothing is produced in a more considered way that closes the loop on production, including responsible manufacturing, use, and the end-of-life stage, emphasising the value of utilising a garment right to the end; understands that, over the past decades, the production and consumption of clothing has increased exponentially around the world leading to a dramatic increase in the negative social and environmental consequences; notes that a report by Zero Waste Scotland, which assessed the carbon impact of Scotland's household waste, showed that textiles account for nearly a third of emissions even though they only make up 4% of waste by weight; further notes that Scotland is home to what it understands is the UK's leading circular fashion hub, Advanced Clothing Solutions (ACS), offering fashion brands and retailers a carbon neutral, rental and resale fulfilment service from a developing biodiversity area in Holytown, North Lanarkshire; welcomes the Scottish Government's £2 million Circular Textiles Fund, as well as the £18 million Circular Economy Investment Fund, administered by Zero Waste Scotland, offering investment for SMEs based in Scotland and supporting work that will deliver circular economy growth; considers that there is need for transparency in the fashion supply chain; notes the calls for legislation that helps to achieve fair pay for textile and garment workers around the world, in light of reports that modern slavery runs deep within the industry, and further notes the growing calls to incentivise responsible and circular consumption through fiscal and regulatory levers that reward fashion companies that design products with lower environmental impacts and penalise those that do not.

Motions

Motions and amendments are usually printed the day after lodging. When an amendment is lodged, then the original motion will be republished alongside it.

Motions and amendments can be published with symbols:

- * before the number indicates publication for the first time
- *...* around a section of text indicates changes to previously published material
- R indicates a member has declared a registered interest

The Parliamentary Bureau periodically deletes motions or amendments that are over six weeks old and not scheduled for debate.

Questions regarding this section should be directed to the Chamber Desk.

***[S6M-07315](#) Ariane Burgess: Increasing Capacity for Nature Protection in Scotland's Seas**—That the Parliament recognises what it sees as the importance of responding to the nature crisis; welcomes the Scottish Government's consultation to develop a new network of Highly Protected Marine Areas in Scottish waters; considers that the seas are the last great commons, which also provide private benefit to Scottish fishers; believes that well-resourced and effective enforcement of marine protection and fisheries management regulations is essential to protect nature and support the law-abiding majority of Scotland's fishing fleet; further believes that concerns have been raised by stakeholder organisations including Coastal Communities Network, Open Seas and the Sustainable Inshore Fisheries Trust (SIFT) that fixed penalty notices and fines are generally not high enough to deter illegal fishing and incursions into marine protected areas (MPAs); understands that only two fines have been issued by the Scottish courts for illegal fishing in a protected area since January 2019, the latest one being just £3,200 for dredging in the Wester Ross MPA; notes the recommendations from SIFT in its October 2021 publication *Fisheries enforcement - opportunities for reform*, which, it understands, call for a review the scale of fixed penalties set under the Aquaculture and Fisheries (Scotland) Act 2007 and the development of sentencing guidelines relating to fisheries offences to ensure that financial penalties reflect what it sees as the seriousness of the offences, considering damage done to the seabed, fish stocks, biodiversity, the Scottish economy and natural wealth, and believes that any revenue from higher financial penalties could help increase resources and capacity for Marine Scotland's compliance, so it can ensure that our seas benefit from higher protection.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
