bracken litter provides an ideal moist, warm habitat for ticks, and the spread of bracken has been linked to a perceived increase in tick numbers; understands that the ever growing number of people enjoying outdoor access is making tick control a priority for land managers, and believes that the public sector should be supporting those efforts in every possible way; considers that there is unequivocal data that proves that spraying of the herbicidal chemical, Asulox, which contains asulam, is by far the most effective method of bracken control; understands that general licensing of this chemical has been restricted for a decade and that land managers have instead had to wait for annual emergency authorisations from the relevant authorities, which often comes too late in the summer to permit the most effective use of the chemical; believes that this system of emergency authorisation is inefficient and that it could be raising the danger of Lyme disease in humans and many other diseases in livestock and pets; urges the Scottish Government to do everything within its power to seek the early authorisation of asulam and Asulox in summer 2023, and further calls on the Scottish and UK governments to recognise that the current pattern of emergency authorisations is not fit for purpose, and to commit to a longer-term solution for tick control, following consultation with land managers.

Members' Bills Proposals

Proposals for Members' Bills

A member seeking to introduce a Member's Bill must first lodge a draft proposal, together with a consultation document (or a statement of reasons why consultation is not considered necessary). Subsequently, the member may lodge a final proposal, in broadly similar terms to the draft, accompanied by a summary of consultation responses (or the statement of reasons). The member secures the right to introduce a Bill to give effect to the proposal if the final proposal secures, within one month, the support of at least 18 other members from at least half the political parties or groups represented in the Parliamentary Bureau, and provided no statement is made that the Scottish Government is planning equivalent legislation.

All current proposals (together with associated documents) are available on the Scottish Parliament website at [Proposals for Members' Bills/Session 6 Proposals](#):

[Proposals for Bills – Scottish Parliament | Scottish Parliament Website](#)

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
