[S6M-08291](#) Shirley-Anne Somerville: Expansion of Vocational and Technical Qualifications in Scotland's Secondary Schools—That the Parliament recognises the wide range of courses, including vocational and technical qualifications, on offer to Scotland's senior phase learners, providing them with a breadth of options to develop their abilities and aspirations in order to reach their full potential; welcomes that Scotland's secondary school learners are now undertaking a much wider range of courses than ever before, with 27.2% of school leavers in 2021-22 gaining vocational and technical qualifications at SCQF Level 5 and above, compared with just 7.3% in 2013-14; acknowledges that young people undertaking vocational and technical courses and qualifications, often facilitated through school-college partnerships, reflects the strengths of the Curriculum for Excellence and provides learners with the best chance of success in further learning, life and work; celebrates that a record number of young people were in work, training or further study after leaving school in 2022, with 95.7% of school leavers in a positive destination three months after leaving school; acknowledges the significant impact of Developing the Young Workforce (DYW), Scotland's youth employment strategy, which was launched in 2014; pays thanks to the DYW regional groups and DYW school coordinators for their work in increasing opportunities for, and participation in, work-based learning for young people; recognises that each individual's learner pathway is different and should be celebrated in equal measure, and commends teachers, schools, colleges, universities, employers and third sector organisations across Scotland for their commitment to improving the opportunities for young people to undertake vocational and professional qualifications in Scotland.

The Presiding Officer has selected the following amendments

[S6M-08291.2](#) Stephen Kerr: Expansion of Vocational and Technical Qualifications in Scotland's Secondary Schools—As an amendment to motion S6M-08291 in the name of

[S6M-08291.1](#) Michael Marra: Expansion of Vocational and Technical Qualifications in Scotland's Secondary Schools—As an amendment to motion S6M-08291 in the name of Shirley-Anne Somerville (Expansion of Vocational and Technical Qualifications in Scotland's Secondary Schools), insert at end “; notes with concern the findings of the recent report published by the University of Stirling and the Nuffield Foundation, which found that curriculum narrowing and a reduced choice of school subjects under the Curriculum for Excellence is affecting outcomes for Scotland's young people, with those attending schools in areas of high deprivation most affected; understands that broadening learning and training opportunities for Scotland's pupils cannot happen effectively without proper resourcing from the Scottish Government; recognises the important role that colleges play as providers of vocational and technical training opportunities and considers this role to be even more important considering the narrowing of subject provision in schools; calls on the Scottish Government to provide urgent clarity on whether additional resources for colleges in the 2023-24 budget will be mainstreamed or for what purposes this funding can be used; further calls on the Scottish Government to urgently publish the promised Purpose and Principles of Post-School Education, Research and Skills report to afford colleges strategic direction at a time when they are considering budget decisions, and calls on the Scottish Government to deliver genuine reform to Scotland's education system, ensuring that all young people have access to vocational qualifications in a school setting, and delivering parity of esteem between academic and vocational qualifications in Scotland.

Debate on the subject of—

[S6M-06478](#) Jamie Halcro Johnston: Road Improvements and the Dualling of the A9—That the Parliament notes with concern the number of incidents that have taken place on the A9 over recent months and led to road closures, and injuries and fatalities; recognises the Scottish Government's commitments to dual the A9 from Perth to Inverness by 2025, which stand alongside other commitments to road improvements, such as dualling of the A96 by 2030, to support road safety, and provide the economic advantages of connectivity; notes the view that commitments and proposals on investment in the road network have not progressed at pace in recent years and that questions have been raised about the commitment of the Scottish Government to these proposals following the agreement between the Scottish Government and the Scottish Green Party Parliamentary Group; acknowledges the belief that work on the A9, in particular, is clearly not on schedule, and notes the calls for the Scottish Government to reaffirm these commitments on the basis of an updated and achievable timetable that should be presented to the Parliament as soon as possible, in order to reassure communities in the Highlands and Islands and across other regions that committed investment will take place.

Motions for Debate

***[S6M-08305](#) John Swinney: Transition to a Wellbeing Economy**—That the Parliament recognises Scotland's international leadership in the transition to a wellbeing economy, by not only growing but transforming the economy to one that serves current and future generations, and delivers a prosperous, socially-just Scotland within safe environmental limits, where everyone can flourish; notes that this remains a defining mission for the Scottish Government, including through its leadership in forming the Wellbeing Economy Governments (WEGo) group and delivery of the National Strategy for Economic Transformation; agrees that the delivery of a wellbeing economy requires a worker- and community-led just transition to a net-zero, nature-positive economy that has equality, human rights and fair work at its heart, enabling Scotland to tackle child poverty, empower communities, build community wealth and create a socially-just society; notes the publication of the Wellbeing Economy Monitor, which tracks broader outcomes beyond GDP on issues such as health, equality, fair work and the environment, and the Wellbeing Economy Toolkit, which supports place-based economic development; commends the work of the Cross-party Group on Wellbeing Economy and partners across Scotland, and recognises that independence would allow Scotland to make greater progress, but, until then, calls for the devolution of energy and additional economic powers to the Scottish Parliament to support Scotland's transition to a wellbeing economy.

Progress of Legislation

A list of all Bills in progress can be accessed via the Scottish Parliament website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 4.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
