Members' Business motions that have not achieved cross party support

***[S6M-20773](#) Alexander Stewart: The Widening Health Inequalities Across Scotland**—That the Parliament notes its concern at what it sees as widening health and healthcare inequalities across Scotland, including in the Mid Scotland and Fife region; understands that, according to the Scottish Public Health Observatory, Scotland has wide socioeconomic inequalities in comparison with other Western European countries; believes that these are a major driver of the high and growing health inequalities, as measured by indicators such as life expectancy and mortality rates; considers that health inequalities in Scotland on some measures are continuing to widen; acknowledges that, with a reported life expectancy gap of up to 13 years for men and 10 years for women between the most and least deprived areas, what it sees as these unjust, systematic disparities are driven by socioeconomic factors, resulting in significantly lower healthy life expectancy and higher mortality rates for, among others, people in poverty, with drug-related deaths reportedly over 15 times higher in deprived areas; considers that, in the face of this challenge, local health centres and primary care infrastructure across Scotland are facing significant pressure, with numerous projects in need of urgent upgrading, expansion or replacement to meet the demands of growing communities and modern healthcare delivery, including the proposed £13 million new Lochgelly Health Centre and the planned £8 million Kincardine Health Centre, which are, it believes, facing severe delays and uncertainty despite reports of numerous calls on the Scottish Government to take action, and highlights factors such as health inequalities, population growth, an ageing population, new housing developments, service modernisation requirements and environmental standards, which are all, it believes, adding pressure to the requirement for updated healthcare infrastructure, which it considers will, in turn, improve patient outcomes and referrals, move care into communities and provide fit-for-purpose workspaces for vital multidisciplinary teams.

***[S6M-20769](#) Gillian Mackay: Recognising the Contribution that Football Clubs and their Fans Make to Society**—That the Parliament notes that football is one of the most loved and successful sports in the country and that Scotland boasts some of the most loyal supporters anywhere in Europe, but believes that, often, fans feel they are taken for granted or are an afterthought; considers that, across the country, including in the Central Scotland region, supporters groups and community trusts or charitable foundations attached to professional clubs are often enhancing their environment and giving back to those who find themselves in challenging situations, from foodbank collections to mental health initiatives; believes that football fans are often the beating heart of their communities,

creating unity in spaces where division can be prevalent; considers that, with rising living costs, varying ticket prices and high transport costs, the current landscape is making it difficult for working-class fans and families to afford to follow their club, an outlet, it believes, that allows hundreds of thousands of people across the country an escapism and a sense of optimism in a time of struggle; recognises that a price cap has been in place in England for over a decade and means that travelling fans do not pay more than £30 for a ticket, yet understands that no such cap exists at present in Scotland; notes the calls for all 42 Scottish Professional Football League (SPFL) clubs, as well as the Scottish Football Association (SFA) to put fans first; further notes the view that the voices of supporters should be heard by decision makers and amplified within the Scottish Parliament, and notes the belief that those running the national game should listen to the calls from the Scottish Supporters Collective and many fans across the country and cap away football ticket prices at £25.

Progress of Legislation

A list of all Bills in progress can be accessed via the website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 2.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
