***[S6M-21095](#) Stuart McMillan: McGill's Celebrates 20 Million Emission-free Miles**—That the Parliament congratulates McGill's Group, based in Greenock, on reaching the major milestone of clocking up 20 million zero-emission miles across its Scottish network; notes that this achievement follows a £95 million investment in electric vehicles and charging infrastructure by the company; recognises that more than 200 electric buses have now been rolled out across its services, resulting in Inverclyde and Renfrewshire having some of the highest proportions of electric buses anywhere in the UK; acknowledges the comments of McGill's chief executive, Tony Williamson, who highlighted that this milestone demonstrates the scale of the company's commitment to delivering cleaner, greener public transport and the significant progress being made in decarbonising Scotland's bus fleet; notes that McGill's estimates that its zero-emission operations have prevented 22,540 tonnes of carbon dioxide emissions, the equivalent of planting 2.6 million trees across an area the size of 5,568 football pitches, and commends the continued efforts of McGill's Group to improve air quality, reduce emissions and provide passengers with quieter, more comfortable and more environmentally friendly journeys.

***[S6M-21094](#) Kevin Stewart: Calls for the UK Government to Listen to the Oil and Gas Industry to Save Jobs**—That the Parliament notes the recent request from Offshore Energies UK (OEUK) operator members calling on the UK Government to replace the existing Energy Profits Levy with a permanent windfall tax; understands that the mechanism in question, the Oil and Gas Price Mechanism (OGPM) is the UK Government's own mechanism, which was designed in consultation with the energy industry as a means of levying a windfall tax only in times of a genuine windfall, while providing a fair and predictable fiscal framework at all other times; agrees with the industry that this would allow projects that are not feasible under the current tax regime to become competitive, thus saving jobs and investment in Scotland's world-class energy industry, and calls on the UK Government to finally start listening to the industry and follow this path before it is too late, and therefore ensure that taxpayers are protected, investment is encouraged and energy security is enhanced.

Progress of Legislation

A list of all Bills in progress can be accessed via the website at:

<https://www.parliament.scot/bills-and-laws/bills>

For each Bill, the date of the next (or most recent) event in the Bill's passage is given. Other relevant information, e.g. about lodging amendments, is given in italics.

As soon as a Public Bill (i.e. a Government, Committee or Member's Bill) has completed Stage 1, amendments for consideration at Stage 2 may be lodged; and as soon as Stage 2 is completed, amendments for Stage 3 consideration may be lodged. The last lodging day for amendments at Stage 2 is four sitting days before the meeting at which those amendments will be considered (e.g. Wednesday for a meeting on Tuesday); at Stage 3 it is five days before. Amendments may be lodged until 2.30 pm on any sitting day, except on the last lodging day for each Stage, when the deadline is 12 noon.

A Hybrid Bill is subject to the same rules except in the case of Stage 2 where amendments for consideration may be lodged no earlier than the completion of any consideration of evidence at Stage 2.

Amendments to Private Bills are subject to different deadlines. These are set out in Rule 9A.12 of Standing Orders.

Members are advised to lodge amendments in good time before the beginning of a Stage and as early as possible during the day.

(G) = Government Bill; (M) = Member's Bill; (C) = Committee Bill; (P) = Private Bill; (H) = Hybrid Bill.
